

DataFace

Be the face of the future by transforming data into solutions

Teachers and pupils receive training, support, mentorship and inspiration from experts in research and cyber security. For all KS3 pupils involved in Gloucestershire Cyber Schools.

Pupils work in teams to:

- **Analyse** a real-life dataset, **identify** a real-world problem, spot and **understand** patterns, and **create** visualisations that tell compelling stories and a user interface to provide a solution
- **Develop** technical and creative skills
- **Discover** career opportunities in Cyber Security and Data Analysis

Winning teams from each school participate in a **CYBER TAKEOVER** at Cheltenham Science Festival 2020
